- Multiple User License (Global) €2475.00

### **Report description:**

In Brazil, wearable electronics has exhibited remarkable resilience in terms of volume growth, even amidst a challenging economic environment characterised by high inflation. Despite the rising costs of living and the overall impact on consumers' purchasing power, the demand for wearable electronics remains strong. This can be attributed to several factors. The increasing popularity of fitness trackers, smartwatches, and other wearable gadgets has led to a surge in demand amongst health-conscious...

Euromonitor International's Wearable Electronics in Brazil report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
