Report description:

Smart wearables are seeing continuous, strong growth in 2023. The growing focus on health and wellness is a significant driver for smart wearables in Poland. Consumers are increasingly interested in monitoring their physical activity, heart rate, sleep patterns, and other health metrics. Smart wearables with advanced fitness tracking capabilities, including GPS, heart rate monitoring, and workout tracking, are in particularly high demand. In addition to their help in monitoring physical activity...

Euromonitor International's Wearable Electronics in Poland report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Activity Wearables, Smart Wearables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Wearable Electronics market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
- * Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
