Report description:

Home video is one category in consumer electronics which is seeing positive volume growth in 2023, following the deep, negative double-digit slumps seen in sales over the past two years. This is attributed to a normalisation of sales patterns following the sales spikes seen during the era of the pandemic, when consumers were investing in their home surroundings during the lockdowns and social mobility restrictions.

Euromonitor International's Home Video in Denmark report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Televisions, Video Players.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
