### **Report description:**

The COVID-19 pandemic brought consumers online more than ever before, and, as a result, retailers have ramped up their efforts to appeal to consumers. Nevertheless, e-commerce growth has slowed from high double digits in 2020 to single-digit growth. Retailers and brands therefore have to get savvier and think about where their customers are going to be searching for their products.

Euromonitor International's Top E-Commerce Trends Shaping Eye Health global briefing examines the size, growth trends and potential opportunities in the Consumer Health market. The strategic analyses include assessing the impacts of changing regulations, research breakthroughs and public health concerns on both the market and leading companies. Consumer attitudes towards the products and their personal healthcare needs are also explored.

Product coverage: Allergy Care, Herbal/Traditional Products, OTC, Paediatric Consumer Health, Sports Nutrition, Vitamins and Dietary Supplements, Weight Management and Wellbeing.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
