### **Report description:**

Following a steep decline in 2020, and a slow 2021, airlines in the US truly began their recovery in 2022. This year saw consumers return to international travel in a meaningful way, as well return to many tier-one domestic city destinations. However, even with strong passenger growth in 2022, high fuel prices, as well as logistical hurdles to meeting the rise in consumer demand, saw airlines struggle to avoid losses. In 2023, however, strong passenger growth, paired with growth in ticket prices...
