India Generics Market Summary, Competitive Analysis and Forecast to 2027

Summary

Generics in India industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- For the purposes of this profile, a generic drug is defined as a copy of an ethical (prescription) drug formerly protected by patents that have now expired. Both unbranded generics and branded generics are included in our market scope. However, off-patent drugs that continue to be offered by the original manufacturer under the original name, and which form part of the 'generic-eligible' market, are not included. The market value is evaluated at ex-factory prices.
- The Indian generics market had total revenues of \$17.6 billion in 2022, representing a compound annual growth rate (CAGR) of 8.1% between 2017 and 2022.
- Market consumption volume increased with a CAGR of 0.4% between 2017 and 2022, to reach a total of 97.4% in 2022.
- The increasing number of cardiovascular and infectious diseases is boosting the demand for generic medicines across the country. According to the International Diabetes Federation, 77 million people in the country currently have diabetes, which is projected to reach 134 million by 2045.
