Report description:

Spain Telecommunication Services Market Summary, Competitive Analysis and Forecast to 2027

Summary

Telecommunication Services in Spain industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The telecommunication services market is defined as the total volume and value of both the fixed line and the wireless telecommunications market. The market volume here is defined as the number of fixed-line and wireless subscriptions.
- The Spanish telecommunication services market had total revenues of \$18.1 billion in 2022, representing a negative compound annual growth rate (CAGR) of 1.3% between 2017 and 2022.
- Market consumption volume increased with a CAGR of 2.3% between 2017 and 2022, reaching a total of 104.9 million total subscriptions in 2022.
- High mobile subscriptions weaken market growth, as little value can be generated from a lower number of new mobile subscribers. According to in-house research, the Spanish mobile phone market contracted by 1% in 2022, reaching a total value of \$11 billion.

Scope

- Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the
