Report description:

In 2023, acetaminophen continues to lead sales of analgesics in Chile, whilst also experiencing the highest growth rate in the category. This growth has remained steady since the onset of the pandemic, where acetaminophen became the preferred choice for relieving mild symptoms of COVID-19, such as headaches, fever, and muscle aches. During this period, acetaminophen was also widely recommended by health authorities and physicians as a safe and effective medication for alleviating symptoms caused...

Euromonitor International's Analgesics in Chile report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
