Report description:

Even after seeing exceptional current value growth in 2022, it is anticipated that analgesics will continue to experience double-digit growth in 2023. This can primarily be attributed to the substantial increase in COVID-19 cases in China starting from the end of 2022, following the cessation of the zero-COVID policy. In 2023, as people's lives progressively returned to normalcy, with the gradual removal of mask mandates and increased social interactions and travel, there have been successive wa...
