Report description:

Analgesics sales are returning to more normal patterns in 2023, following the fluctuations caused by the COVID-19 pandemic and the sharp price rises seen in 2022. On balance, current value growth rates are still elevated compared to pre-pandemic years, but consumers have shifted back to normal usage patterns for pain relief products. The primary reasons for using analgesics have reverted back to normal ailments and viruses in 2023, as COVID-19-related symptoms are less prominent, with the more u...
