Report description:

In terms of retail current value sales, digestive remedies is projected to record healthy growth in 2023. This is mainly driven by average retail current unit price growth. In 2022, the growth in average unit prices was still relatively low, although some categories witnessed fast increments. Nonetheless, in early 2023, in particular, the major players in digestive remedies were forced to increase prices to compensate for the extraordinarily high increase in cost of production since the start of...
