Report description:

The UK regained its position as Western Europe's second largest new car market in 2022 despite being significantly impacted by supply shortages, slowdowns, and the war in Ukraine. The country is working to reduce CO2 emissions by encouraging the switch to electric vehicles, use of shared mobility and enhancing public transportation. Additionally, in order to have fully autonomous vehicles circulating by the end of the decade, the UK keeps conducting trials and improving national connectivity.

Euromonitor International's Mobility in United Kingdom report offers a comprehensive guide of the traditional and newly emerging mobility forms. The report is broken down into five key areas of industry research: automotive sales and ownership, electric and alternative fuel vehicles, shared mobility, public transport, and autonomous vehicles and connectivity. It provides the latest automotive sales and registration and shared mobility data over 2015-2020, allowing you to identify the sectors driving growth. It assesses the strategic analysis of key factors influencing the market - be they legislative, consumer lifestyle or economic. Forecasts in the reports are available to 2025.

Product coverage: Car Rental, Car Traffic Volume, Distances Travelled by Mode of Transport, Electric Charging Stations, Fuel Prices, Light Vehicle Sales, Light Vehicle Sales by Level of Autonomy (0-5), Shared Mobility, Vehicle Production, Vehicle Registrations, Vehicles in Use.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
