### **Report description:**

Sports nutrition products typically have very high prices, which limits the growth potential to an extent. As such, consumption is limited to consumers in medium and high income groups. In addition, some sports nutrition products sold in Ecuador can be about double the price of the same product in other countries. In 2023, with the economy spluttering, sports nutrition is expected to register only a slight increase in volume sales. Sport protein powder continues to account for most value and vol...
