Report description:

After experiencing a significant double-digit decline in retail value terms in 2022, weight management and wellbeing is only showing signs of a modest rebound in 2023 with flat growth. However, the overall outlook remains subdued as consumers continue to display waning interest in weight management and wellbeing, primarily due to the impact of rising inflation, particularly affecting those with low to mid-level incomes. As disposable incomes shrink, consumers are compelled to prioritise their sp...
