Report description:

Although the Spanish economy is showing some positive signs compared to the pandemic years, its pace of growth is not as fast as expected, mainly dragged down by global challenges, the energy crisis, elevated inflation and growing interest rates. All these factors are combining to place pressure on many Spaniards' disposable incomes, and hence eroding the performance of perceived non-essential purchases, including weight management, which is experiencing some declines in demand. Therefore, some...

Euromonitor International's Weight Management and Wellbeing in Spain report offers a comprehensive guide to the size and shape of the market at a national level.
