Report description:

In the context of transforming the health system in Indonesia, one of the agendas currently being pursued by the Ministry of Health is to increase pharmaceutical resilience by increasing domestic production of the top 10 value medicines, which includes research, clinical trials, production, and meeting the need for raw materials for medicines. One of these is the development of raw materials for the drug paracetamol (acetaminophen). Paracetamol is one of the most widely consumed OTC products in...

Euromonitor International's Analgesics in Indonesia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
