Report description:

Tanzania's economy continues to bounce back from the effects of COVID-19, with the government investing in local dairy production and raising taxes on imports. The country's large, affluent middle class underpins the demand for more expensive value-added dairy products and alternatives. However, the industry faces a new set of challenges due to inflation. Although inflation remains lower compared to other countries in Africa, prices are still increasing which is causing consumers to shift their...

Euromonitor International's Dairy Products and Alternatives in Tanzania report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
