Report description:

High inflation and increasing prices are the main factors impacting the performance of dairy products and alternatives in 2023. Turkey has already been experiencing a high inflationary phase, with the rate of inflation rising dramatically in 2022-2023, in line with the global effects of the war in Ukraine, as well as the devaluation of the Turkish lira and rising costs of raw materials, energy, production and transportation, etc. While projected to be below the 2022 rate, inflation in Turkey in...
