### **Report description:**

In 2023, drinking milk products in Japan, which includes flavoured milk drinks, milk, and powder milk, is set to remain at almost the same level of sales as the previous year in current value terms. However, retail volumes are set to suffer a notable decline in 2023, as consumers are becoming more selective about and conscious of the purchases they make in response to rising living costs. Not only is the cost of packaged food increasing, but also the costs of other necessities, putting pressure...

Euromonitor International's Drinking Milk Products in Japan report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2027, clearly indicating how the market is expected to change.
