Report description:

Milk is one of the products in dairy which has been strongly affected by associative price hikes seen in raw materials and ingredients, labour, and logistics. Therefore, a number of players were forced to increase their prices, whilst others kept their prices stable but reduced their number of promotions or discounts. Brand Foremost (from FrieslandCampina (Thailand) PCL) has to stop its pasteurised milk production, which accounts for a reported 10% of its revenue shares, to focus on its UHT milk.
