### Report description:

Over 2023, the average retail current unit price of drinking milk products is projected to see a triple-digit increase. This notable price surge can be primarily attributed to the substantial devaluation of the Turkish lira. The prices of raw milk have experienced multiple increases due to the escalating costs of animal feed, which is typically imported and susceptible to fluctuations in foreign currency exchange rates. Currency devaluation also has a direct impact on the cost of production, pac...
