Report description:

Drinking milk is expected to register both healthy current value and volume growth, with a growing population supporting volume sales. While inflation is still high, it is easing. Shelf stable continues to account for most volumes sales through official retail channels and is expected to register the highest current volume growth in 2023. Its long life supports volume sales, as Uzbekistan is a large country and it is expensive to transport chilled fresh milk. In addition, unpackaged milk accounts...
