Report description:

In 2023, plant-based dairy in Nigeria experiences a reduction in volume, continuing the trend from the substantial decline observed in 2022. Persistent inflationary conditions in 2023 influence both consumer affordability and unit pricing. Despite showing considerable growth over the review period, plant-based dairy remains a relatively niche category in Nigeria, rendering it non-essential in the eyes of most consumers.

Euromonitor International's Plant-based Dairy in Nigeria report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2027, clearly indicating how the market is expected to change.

Product coverage: Plant-based Cheese, Plant-based Milk, Plant-based Yoghurt.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Plant-based Dairy market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
- * Use five-year forecasts to assess how the market is predicted to develop.
