Report description:

Analgesics continues to witness strong current value growth in 2023 as consumers return to normal lifestyles and are exposed to regular seasonal common colds and viruses. A high proportion of analgesics are used to tackle everyday colds and flu symptoms, which is normally higher during the colder months and is caused by more human interaction inside buildings during the winter season in Latvia. The sharp rise in inflation has also impacted prices since 2022, underpinning current value growth. Ne...

Euromonitor International's Analgesics in Latvia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
