Report description:

Analgesics remained a key product area within consumer health in Sweden in 2023, having accounted for close to a quarter of overall OTC value sales. The most popular analgesics were those based on active ingredients acetaminophen or ibuprofen, with smaller contributions from aspirin and naproxen. During the pandemic, there was some controversy surrounding ibuprofen, which was thought to worsen symptoms of COVID-19. However, since then, further studies have been produced to contradict these claim...
