Report description:

Dermatologicals experienced a modest decline in overall constant value terms in 2023, although performance varied considerably according to subcategory. One notable development was the buoyant demand for antiparasitics/lice treatments, continuing the trend of the previous year. With children spending more time socialising outside the home, they were more exposed to environments which could lead to lice infestations. Similarly, medicated shampoo continued to see positive value growth as the numbe...

Euromonitor International's Dermatologicals in Sweden report offers a comprehensive guide to the size and shape of the market at a national level.
