Report description:

Hair weakens and becomes vulnerable to shedding due to reasons like seasonality (seasonal transitions), stress, hormonal changes and thermal applications. For this reason, hair loss treatments tends to see increases in demand in spring and autumn, which are regarded as seasonal transition periods. Serum products have become more visible among anti-shedding products, while the ingredients used for professional products also reflect the demand trends in the mass market. Serums for hair scalp treat...

Euromonitor International's Dermatologicals in Turkey report offers a comprehensive guide to the size and shape of the market at a national level.
