Report description:

Following the emergence of the pandemic in 2020 and into the following year, dietary supplements experienced robust growth, fuelled by consumers' desire to boost their immune systems and overall health. However, consumer interests shifted during 2022; a substantial proportion of their disposable incomes previously used to acquire dietary supplements was divested towards more pressing issues or pleasurable experiences, such as entertainment, food, and travel. Consumers in the post-pandemic scenar...

Euromonitor International's Dietary Supplements in Mexico report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
