Report description:

Abu Dhabi and Al Ain are the UAE's most economically vibrant cities. Meanwhile, Fujairah holds the highest potential for future economic growth, boosting incomes and expenditure growth for the city's population. Going forward, cities in the United Arab Emirates are expected to witness ageing populations and increasing demand for infrastructure development to support large and concentrated populations. Nevertheless, cities are set to retain youthfulness and high economic potential.

Euromonitor International's City Review reports analyse key trends and developments in 126 world's major cities. They provide localised city information in terms of economy, consumer lifestyles, housing and transport and city environment and offer valuable insights for strategic planning.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Cities market;
- * Pinpoint growth sectors and identify factors driving change;
