Report description:

Thailand Acetone market demand stood at 174.77 Thousand Tonnes in 2020 and is forecast to reach 371.2 Thousand Tonnes by 2030, growing at a healthy CAGR of 7.12% until 2030. Demand for Acetone in Thailand is anticipated to grow significantly in the forecast period, driven by its strong requirement in the chemical industry to produce Isopropyl Alcohol and Bisphenol A, compounds widely required to produce various end-use products in industries like pharmaceuticals, adhesives, cosmetics, and paints and coatings. Moreover, the increasing requirement for Acetone in niche pharmaceutical applications backed by the rapid expansion of the Asian pharmaceutical industry is likely to surge Acetone demand in the next five years. The outbreak of COVID-19 impacted the market growth adversely as the major end-user industries were closed following the government instructions and guidelines. Disruption in the supply chain was observed which further affected the market growth. However, post COVID-19 period the market is expected to pick up the pace and witness growth in the forecast period.
