Report description:

Spain Methanol market demand stood at 932.37 Thousand Tonnes in 2020 and is forecast to reach 1378.95 Thousand Tonnes by 2030, growing at a healthy CAGR of 3.60% until 2030. The increasing number of advancements to manufacture bio-based chemical commodities in various end-user industries like packaging, paints and coatings, construction, and automotive are pushing Methanol demand over its other available substitutes. Due to the onset of COVID-19, the market faced a setback as the major end-user industries using Methanol and its derivatives were temporarily shut down. Chemical industries were not able to produce the requisite volume which led to adversely affect the Methanol market in Spain.
