Report description:

South America Phenol demand stood at 0.34 million Tonnes in 2020 and is forecast to reach 0.49 Million Tonnes by 2030, growing at a healthy CAGR of 3.8% until 2030. Phenol is mainly used for the manufacturing of essential chemicals such as Bisphenol A, Epoxy Resins, and Phenolic Resins. The demand for Phenol in South America is likely to grow tremendously during the forecast period on account of the strong demand for Bisphenol A from the automotive and consumer goods sector. Besides, rising investments in infrastructural development activities and increased consumer spending are contributing to the market growth of Phenol in South America. Additionally, increased R&D activities and growing industrialization activities are contributing to the South America Phenol market.

The COVID-19 pandemic resulted in the declined demand for Phenol in South America due to the shutting down of industries, construction activities, and reduced consumer spending on luxury items. However, the South America phenol market is gradually bouncing back with the increase in commercial and infrastructural development activities due to ease in lockdown restrictions in the region.

Under this subscription, you would be able to access the South America Phenol market demand and supply analysis on a cloud-based platform for one year. The data is updated on a near real-time basis to add any new movement in the industry, including but not limited to new plant announcements, plant shutdowns, temporary disruptions in demand or supply, news and deals, and much more specific to Phenol.

Deliverables:

- Installed Capacity By Company: Installed capacity at a regional level along with the individual capacity of leading players
- Installed Capacity By Location: Installed capacity at country level
- Installed Capacity By Process: Installed capacity by different processes
- Installed Capacity By Technology: Installed capacity by different technologies being used to produce Phenol
- Production By Company: Actual production done by different companies
- Operating Efficiency Company: Operating efficiency at which different companies are operating their plants
- Demand By End Use: Demand/Sale of Phenol in different end-user industries across the region
- Demand By Sales Channel: Demand/Sale of Phenol by different sales channels across the region
- Demand By Country: Demand/Sale of Phenol in different countries of the region - Brazil, Argentina, Others
- Demand & Supply Gap: Demand & Supply Gap at the regional level
- Market Share of Leading Players: Revenue shares of leading players in the region
- News & Deals: Historical & Current News & Deals in the Phenol market

To extract data for the South America Phenol market, the ChemAnalyst team conducts primary research surveys with Phenol manufacturers, suppliers, distributors, wholesalers, and customers, followed by exhaustive secondary research to cross-validate the information being collected through primary research surveys.
