Report description:

When it comes to pain management, analgesics is a popular category, specifically acetaminophen. For many consumers, acetaminophen is their go-to preference as it is easily available across various channels. Additionally, it can be bought without medical advice from a health practitioner, making it easier for consumers across all income groups to access. During the review period, South Africa had been experiencing influenza surges with analgesics becoming a popular product for consumers to handle...

Euromonitor International's Analgesics in South Africa report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
