### **Report description:**

The Brazilian dairy industry has historically had negative results in its balance of trade. The country's dairy production has not been sufficient to supply all its needs in terms of dairy products. In the past year, for some categories it has been more advantageous to import dairy products than buy them from local producers. 2022 saw numerous constraints in the dairy industry that impacted the final product price. According to the Center for Advanced Studies in Applied Economics (Cepea), the pr...
