Report description:

Wearable electronics in India continues to experience robust growth, driven by falling unit prices, technological advancements and growing consumer awareness of health and wellness. Intense competition among existing players and new entrants has given rise to aggressive discounting. Brands are also launching new budget-friendly variants in order to target the price conscious consumer segment, thereby bringing the average unit price for the category down. Furthermore, many smartwatch brands, such...

Euromonitor International's Wearable Electronics in India report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Activity Wearables, Smart Wearables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Wearable Electronics market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
- * Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems. With offices in London, Chicago, Singapore, Shanghai, Vilnius, Dubai, Cape Town, Santiago, Sydney, Tokyo and Bangalore and a network of over 800 analysts worldwide, Euromonitor International has a unique capability to develop reliable information resources to help drive informed strategic planning.
