Report description:

KEY FINDINGS

The Europe defoamers market is expected to progress with a CAGR of 4.56% in terms of revenue as well as xx% in terms of volume during the forecasted years of 2024 to 2032. The continuing year-over-year stability in paper and pulp consumption in Europe is expected to boost the usage of defoamers, predominantly for processing operations and, hence, boost the defoamers market growth in Europe.

MARKET INSIGHTS

The United Kingdom, Germany, France, Italy, Spain, and Rest of Europe are assessed for the Europe defoamers market growth analysis. According to the Association Nationale des Industries Alimentaires (ANIA), the French population consumes approximately 20% more alcohol than the rest of the EU. This consumption trend is anticipated to significantly impact the growth of the defoamers market, which plays a key role in preventing foam formation during processing. Several major players in the food and beverage industry in France are pursuing strategic initiatives to expand their businesses. These endeavors are expected to propel the defoamers market forward, as defoamers are crucial in the manufacturing and processing of food and beverages to prevent foam formation.

For instance, the French multinational food and beverage company Danone acquired Alpro, a food and beverage multinational company based in Flanders. This strategic acquisition is set to boost the production of beverage and food products. Furthermore, the increased production of food and beverages is likely to drive the utilization of defoamers for foam elimination during the production processes, leading to substantial growth in the defoamers market in France.

COMPETITIVE INSIGHTS

Some of the eminent players operating in the market are Evonik Industries AG, Wacker Chemie AG, Henkel AG & Co KGaA, etc.

Our report offerings include:

- Explore key findings of the overall market
- Strategic breakdown of market dynamics (Drivers, Restraints, Opportunities, Challenges)
- Market forecasts for a minimum of 9 years, along with 3 years of historical data for all segments, sub-segments, and regions
- Market Segmentation caters to a thorough assessment of key segments with their market estimations
- Geographical Analysis: Assessments of the mentioned regions and country-level segments with their market share
- Key analytics: Porter's Five Forces Analysis, Vendor Landscape, Opportunity Matrix, Key Buying Criteria, etc.
- The competitive landscape is the theoretical explanation of the key companies based on factors, market share, etc.
