Report description:

While growth remains modest, sleep aids is set to record an improved result in volume sales terms in 2023. The easing of the pandemic has helped to lift demand, in that many people have started to experience insomnia and other types of sleep problems more frequently as life in Taiwan has become busier and more stressful with the return to normal routines. Heightened economic anxiety amidst a steep increase in the cost of living has had a similarly positive impact on the category's performance. I...
