Report description:

Elevated inflation and other economic challenges have resulted in a large number of job losses in Vietnam which has had a negative effect on the recovery of menswear in 2023 in both value and volume terms. Although the government has introduced a temporary reduction in VAT from 10% to 8% for the second half of 2023, many individuals are still being forced to look for ways to save money. As such, many consumers have reduced their spending less on non-essential menswear items, with some consumers...

Euromonitor International's Menswear in Vietnam report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022 and analysis by distribution format allowing you to identify the sectors driving growth. It identifies the leading companies, leading brands, and offers strategic analysis of key factors influencing the market. Forecasts to 2027 illustrate how the market is set to change.
