Report description:

Womenswear continues to experience both value and volume growth in 2023, building on significant gains from the previous year. The first half of 2023 witnessed robust sales as both consumers and the economy recovered from the pandemic's impact. Canada, having ended public COVID-19 safety measures in mid-2022, faced a delayed recovery compared to countries with earlier restrictions lift. Notably, office wear gains momentum in 2023 as more employees return to workplaces due to companies rolling ba...

Euromonitor International's Womenswear in Canada report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022 and analysis by distribution format allowing you to identify the sectors driving growth.
