### **Report description:**

2022 was characterised by constant unit price increases across packaged food, and baked goods was no exception; and this trend has continued in 2023. This is set to lead to dynamic increases in current value terms across baked goods categories in the US, but mixed performances in volume terms. Overall baked goods is set to see double-digit retail current value growth in 2023, yet retail volume sales are expected to increase only slowly. Even more indicative of this impact is that unit price incr...
