Report description:

Like other companies across packaged food in Hungary, breakfast cereals manufacturers have adjusted their packaging strategies in 2023 in an effort to better navigate soaring inflation and the worst cost-of-living crisis in decades. Most notably, several players have introduced larger pack sizes, which in addition to offering better value for money for consumers can help to mitigate rising production and raw material costs. This trend has been especially prominent in children's breakfast cereals...

Euromonitor International's Breakfast Cereals in Hungary report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2027, clearly indicating how the market is expected to change.
