Report description:

Breakfast cereals is witnessing healthy growth in 2023 and this is mainly due to the normalisation of life in the Kingdom and the lifting of COVID-19 restrictions. The re-opening of schools and consumers returning to the workplace has had a significant impact on the consumption of breakfast cereals in 2022 and 2023, with demand closely linked for the need for convenience. The dynamics of this market have been changing which is having a positive influence on demand for breakfast cereals. While th...
