Report description:

Breakfast cereals is showing signs of stagnation with only moderate growth being seen in retail volume terms in 2023, with continuously increasing prices being the main contributor to value growth in current value terms. Both manufacturers and retailers faced a significant increase in costs in 2022 but many looked to delay passing all of these costs onto the end consumer. Consequently, while inflation has slowed in 2023 prices have continued to rise at a relatively rapid pace due to the postpone...
