- Multiple User License (Global) €5250.00

Report description:

The credit market in Argentina remains highly restricted, primarily constrained to personal loans. The funds that banks receive from their clients are predominantly funnelled into a financial instrument called Leliq, which offers a lucrative high-interest rate. This money is utilised by the national government for financing and to control excessive money circulation in the market, thereby averting speculation and potential escalation of the dollar's value. In return, the national government offe...
