Report description:

While total current value sales growth for cooking ingredients and meals in Argentina in 2023 is set to be up markedly on the previous year, this is primarily because the country's already chronically high inflation has skyrocketed due to the sharp devaluation of the peso and external factors linked to the global recovery from COVID-19 and Russia's invasion of Ukraine. Despite the most severe cost-of-living crisis in decades, however, overall retail volume sales have continued to increase, and a...
