Report description:

Cooking ingredients and meals is witnessing greater stability in 2023 following the price shocks of 2022, which created much upheaval for the category. There was a significant increase in prices across the cooking ingredients and meals category in 2022, but prices have begun to re-adjust in 2023 with a decrease in the price of sunflower and corn oil. As a result, there was a notable increase in the consumption of sunflower oil, notably from Russian origin, as it is cheaper than local brands. Con...
