### **Report description:**

Bolivia has managed to protect itself to a large extent from inflation by continuing to have a fixed exchange rate against the dollar. However, there has been challenges for the economy in 2023, with sharp falls in foreign currency reserves and this has increased inflationary pressure, particularly for imports, with inflation higher than 2022. As a result, cooking ingredients and meals is expected to register minimal constant value growth, with volume sales falling slightly, as rising costs hit...

Euromonitor International's Cooking Ingredients and Meals in Bolivia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
