Report description:

Most product areas within cooking ingredients and meals maintained positive value, despite a decline in volume. This decline can be attributed to the significant inflation experienced in the previous year, the resulting growth in retail prices, and the slow process of inflation stabilisation in 2023, with prices remaining relatively high, especially in the first quarter. These challenges were exacerbated by official data from the National Statistical Institute revealing that three-quarters of Bu...

Euromonitor International's Cooking Ingredients and Meals in Bulgaria report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
