Report description:

Cooking ingredients and meals registered value sales growth across the market in 2023 due to rising prices while volume sales growth was modest. Consumers sought out lower priced options such as private label and stand-up pouches due to ongoing inflationary pressures. The full resumption of society boosted foodservice while the return of students to their places of education and reduced home working opportunities among employers led to diminished demand for products that are consumed at home.

Euromonitor International's Cooking Ingredients and Meals in Honduras report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
