### **Report description:**

Cooking ingredients is expected to register muted constant value and volume growth in 2023. Continuing economic uncertainty as a result of Russia's invasion of Ukraine, the meteoric rise in inflation and tightening monetary policy, all have a dampening impact. In particular, inflation is expected to still be an issue, though growth is expected to ease. As a result, consumers are expected to be highly price sensitive and prioritise value for money.

Euromonitor International's Cooking Ingredients and Meals in Latvia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
